

Lexis[®] Visualfiles

Customisable workflow solution

Improving your efficiency today. Evolving with you tomorrow.

Lexis[®] Visualfiles is a powerful workflow solution that will dramatically increase your profitability, productivity and client satisfaction by optimising efficiencies through the automation and streamlining of processes and tasks.

This flexible easy-to-use solution, coupled with LexisNexis' unrivalled experience, delivers a system that will support your organisation's ambitions today and in the future.

Lexis Visualfiles has been the automation tool of choice for top tier firms, corporate and government departments for over a decade.

“ The software has enabled a simpler more streamlined system to be developed, which is **easier for users to operate**. It reflects the Commission's business needs more accurately and also enables more precise reporting, quickly. ”

Legal Aid Commission of Tasmania

Lexis Visualfiles – Designed with your efficiency and productivity in mind

Lexis Visualfiles delivers immediate value and operational efficiency with its user-friendly extension to Microsoft Outlook. This extension provides a file-centric view of documents, emails, contacts and standard precedents. Additionally, the **feature-rich** and **easy-to-use** platform streamlines your processes and provides you with the tools to adapt as your business grows into new areas.

Lexis Visualfiles: Key features for improved efficiency

By choosing Lexis Visualfiles, you will:

- ✓ **Streamline access** to systems and information to provide authorized users with a full 360° view of all files, at all times and simultaneously.
- ✓ **Maximise operational efficiency** with access to real time business performance and work load reporting, providing **complete visibility** to key stakeholders.
- ✓ **Reduce cost and increase security** through Lexis Visualfiles' fully integrated document management repository, which allows users to easily file and retrieve matter related correspondence both quickly and seamlessly.
- ✓ **Achieve accuracy and improve productivity** through automation of document assembly, data entry and even the most complex business processes.
- ✓ Gain **complete flexibility** with the Lexis Visualfiles Rapid Application Development toolkit that enables users to define, control, monitor and automate the flow of business processes.
- ✓ Have confidence in a **trusted solution**, created by an international leader in the legal market and workflow solutions, and used by top tier firms, corporate and government departments.

“ As a result of the development of the Lexis Visualfiles solution, the Legal Aid Commission of Tasmania can now **process and allocate grants of aid more efficiently**, than any other Legal Aid Commission in Australia. ”

Lexis Visualfiles – Designed to meet today’s needs and tomorrow’s opportunities

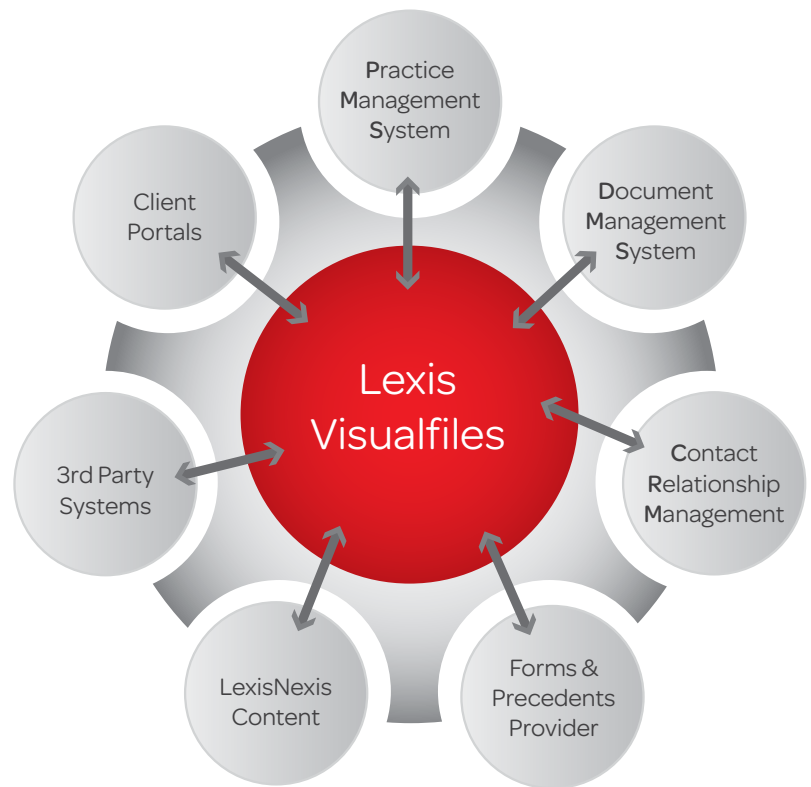

Lexis Visualfiles is a low risk, mature and highly flexible workflow solution, with the ability to adapt to your changing needs and ambitions. **Highly scalable**, it has been proven to perform with up to 2000 concurrent users.

Lexis Visualfiles – Protecting your technology investment through integration

Lexis Visualfiles can easily be extended and expanded as business requirements change, ensuring you minimise your technology investment risk.

“ Our clients invariably need their legal matters dealt with promptly. By using Lexis Visualfiles, along with the other **integrated** systems at Crown Law, our lawyers have a streamlined, tailor-made system to help them manage files and **access relevant information quickly and easily**.

Crown Law

That is why it has been the **trusted solution partner to many top tier organisations** across the world over the last decade.

In Australia, Lexis Visualfiles provided Sparke Helmore with a scalable solution that met the firm’s unique demands of workflow, project management and reporting requests of clients.

“ We needed to invest in a solution that would allow us the **flexibility** to differentiate our service from the rest. The user and cost efficiencies of Lexis Visualfiles benefited Sparke Helmore and helped us launch a **more efficient** service. We were delighted to be able to provide our client with an improved view of its projects. Thanks to elements of Lexis Visualfiles, we were able to deliver this innovative client service **on time and on budget**.

Peter Campbell, CIO and Knowledge Director, Sparke Helmore
