Lexis® Create
Legal drafting made simple

Welcome to the future of legal documents. **Lexis Create** is the one tool you need to effectively save time, deliver consistency and minimise errors while seamlessly linking with LexisNexis legal intelligence products, all within the Microsoft Environment.

Seamless integration is the Lexis Create difference.

Re-use and share your own previous drafting, quickly check cases or access additional precedents as needed, with **Lexis Create** you can accurately build, check and complete documents.

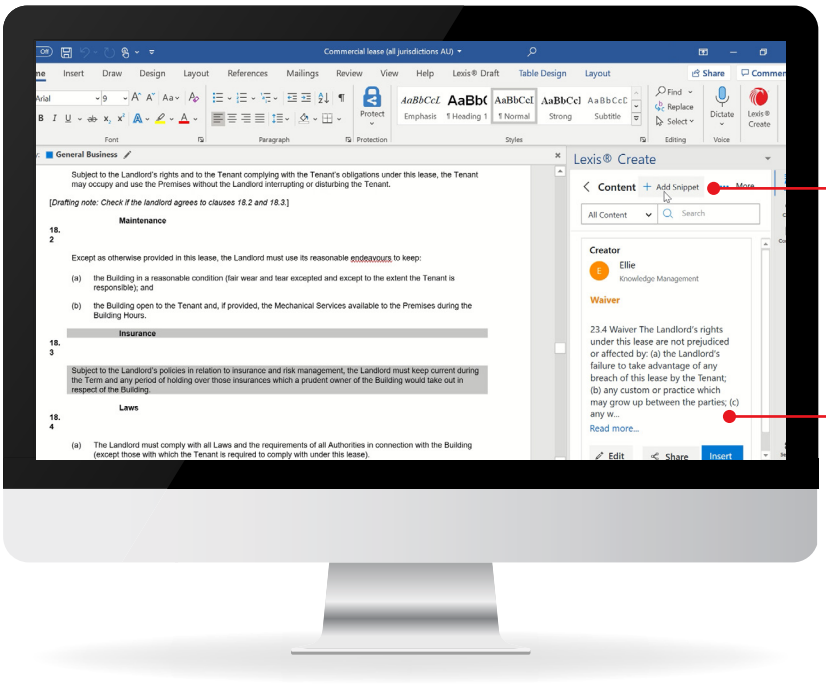
Save time. Reduce risk.

Lexis Create is embedded within the Microsoft environment you use every day, to help you create, share and review legal documents. Linking seamlessly into your other LexisNexis legal intelligence products, Lexis Create ensures accurate and efficient drafting so you can focus on putting your legal knowledge into practice.

KEY FEATURES

BUILD

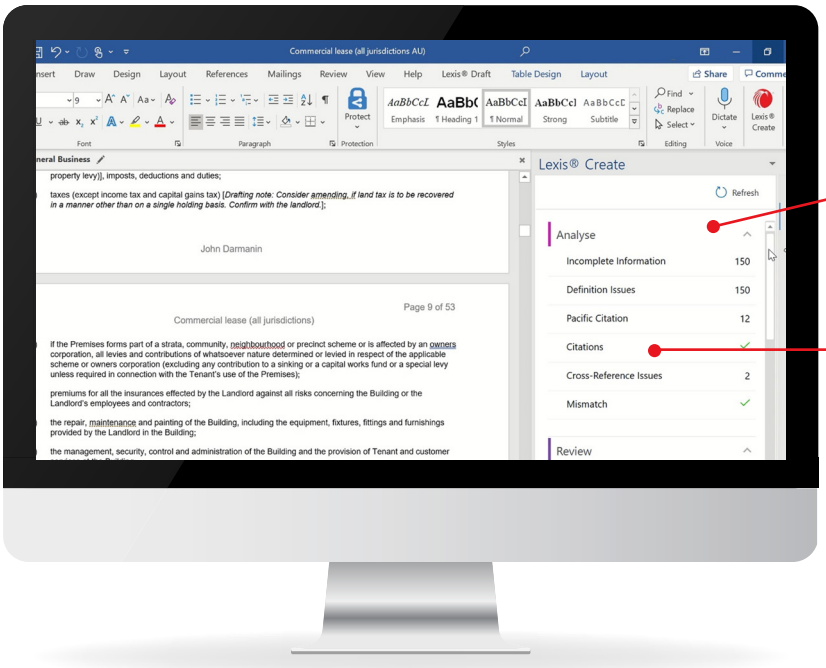
Integration with existing LexisNexis solutions has **never been so easy**, You'll have instant access to LexisNexis research solutions within the Microsoft environment. Without the need to open up a browser or separate system.



Snippets enable you to create, save, search and access a bank of clauses that can be date stamped, tagged and approved, improving accuracy and consistency across your practice.

CHECK

Legal Review tools highlight any inconsistencies with the document for fast and easy cross-referencing & proofreading.



Access the power of **Lexis Advance®** research solutions to mitigate risk by providing a clear view of the law as it develops, ensuring the most accurate cross-references, so you can quickly find the strongest authorities to support your case.

COMPLETE

For the first time, LexisNexis incorporates the Redact functionality into document creation, to instantly remove the risk of incorrectly displaying confidential information. Integration with **DocuSign®** provides quick and easy digital execution of documents.
