

# Lexis Advance<sup>®</sup>

## Minimum system requirements

Supported operating systems	Microsoft <sup>®</sup> Windows <sup>®</sup> 7 Microsoft Windows 8, 8.1 Mac <sup>®</sup> OS X <sup>®</sup> –10.x operating systems
Supported browsers	Internet Explorer <sup>®</sup> 8.x, 9.x, 10.x, 11.x Chrome <sup>™</sup> browser 34.x Firefox <sup>®</sup> 29 Safari <sup>®</sup> 6.x, 7.x <b>Notes:</b> JavaScript <sup>®</sup> must be enabled for Lexis Advance <sup>®</sup> to run properly. Use your browser's advanced settings to enable JavaScript if it is not currently enabled. You may have to disable your browser's pop-up blocker in order to use some features. For fastest performance, enable the HTTP 1.1 protocols in your browser's advanced settings.
RAM	4 GB or more recommended <b>Tip:</b> Lexis Advance performs well with RAM as low as 1 GB, but if you generally run multiple applications or browser windows simultaneously, this will affect memory and overall performance, so higher RAM is recommended.
LAN Connection	You will need a TCP/IP connection of suitable speed with Internet access. <b>Note:</b> Local area network (LAN) firewalls, proxy servers and network administration software (including virus scanners, other traffic on the network, etc.) may impact performance.
